

Organization Certificate for Industrial Equipment Cleaning

Certificate No.: CBWA GYQX-H-A-033

Organization Name: Cangzhou Xinchang Chemical Corporation

Address:

The 16th Floor, Tower B of Taida International Square, Cangzhou City, Hebei Province. China

This is to certify that the captioned organization has fulfilled the requirements of level A of under the Standards of Qualifications for Industrial Equipment Cleaning Chemical cleaning upon examination and verification.

Levels of Organization Certificate for Cleaning

Levels	Approved scope of chemical cleaning	Approved scope of mechanical cleaning			
		High pressure wa- ter jet cleaning	Storage tank cleaning	Pipe mechanical cleaning (PIG cleaning)	Furnace tube me- chanical cleaning to remove coking
Α	Chemical cleaning at all levels	High pressure water cleaning at all levels		Pipe mechanical cleaning at all levels	Furnace tube mechanical cleaning to remove coking at all levels
В	Chemical cleaning of a single set of ethylene plant with a capacity of 600,000 t/a or less, a complete set of oil refining plant with a capacity of 5,000,000 t/a or less, a high pressure oxygen system, a high pressure nitrogen system and special material equipment, and chemical cleaning at level C	High pressure water cleaning below 200	a volume of less than	Mechanical cleaning of pipes with a design pressure below 10 MPa for transferring inflammable and explosive gases (excluding sulphur-containing gases) and fluids, and cleaning at level C	
C	Chemical cleaning of industrial facilities with a working pressure of 2.5 MPa or less (excluding ethylene facilities, high-pressure oxygen systems, and high pressure nitrogen systems), a complete set of oil refining plant with a capacity of 2,000,000 t/a or less, industrial circulation cooling water treatment systems, and chemical cleaning at level D	High pressure water cleaning below 100 MPa	of storage tanks with	Mechanical cleaning of pipes with a design pressure below 2.5 MPa for transferring non-toxic and non-inflammable fluids	
D	Working praceling of this wips of lace diciliation toward	High pressure water			

Validity Period: August 20, 2018 August 20, 2022

Issuing Authority: China Boiler and Boiler Water Treatment Association

Date: August 20, 2018 10105172901

Cleaning organizations may apply to the local special equipment inspection authorities for keeping the Certificate on record.
